

## Summer School Report for Hank Kelly/June - July 2010

As required for promotion, Hank has completed 60 hours of summer school classes at Trinity Lutheran School. The areas of emphasis were Language Arts and Math. It needs to be mentioned that Hank displayed excellent effort and attitude while at school.

The attached chart shows the particular math skills that Hank worked on while in attendance. It is to be noted that he actually worked responded to 3,525 math problems. A certificate for reaching the 3,500 level is also included.

Most of Hank's Language Arts work focused on writing and vocabulary skills. He completed 32 assignments and his average grade was a 93. As I stated previously, his attitude and effort were excellent.

Hank and I also had some time to visit and do some goal-setting while he was here. As pleasant as his summer school experience was, Hank assures me that he does not plan to have to do this again. Hank is a very capable young man, and it should not be necessary for him to do so. He knows that he has to keep his grades up and be much more consistent with his work.

If any more information is needed, please feel free to contact me personally.

*Hank, I hope you have a great year in 6<sup>th</sup> grade. Feel free to stop by my office and chat some time. Mrs. B. C.*

Now that I have completed summer school . . .

Now that I finished summer school  
I'm not behind any more in school.  
I learned a lot and reviewed a lot. It was  
not that bad until I had to use the  
Dictionary. Next year I'll do better  
now that I learned a lot. My favorite  
part was not school but using and seeing  
their big printer machine. Next year  
I may know more because of the stuff  
I learned that I didn't need to. One  
thing I'm going to do is get cheese  
popcorn.
